### TONOPAH DAILY BONANZA

OFFICIAL PAPER OF NYE COUNTY

Published every evening Sunday excepted, by the Tonopah Bonanza Printing Co., Inc.

#### W. W. BOOTH, EDITOR AND MANAGER

MEMBER NEVADA PRESS ASSOCIATION.

\$12.00 Three Months \$2.00 \$12.00 One Month 1.00 \$.00 One Week 20 Bellvered by Carrier \$1.25 Per Month

A reward of \$10 will go paid for information that will lead to the arrest and conviction of parties stealing The Bonanza from subscribers.

#### TO SUBSCRIBERS.

Parties who do not receive their papers, or who have any cause of complaint, will oblige The Bonanza by notifying this office.

All legal advertisements will be charged for at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

No advertising cut, one inch square or smaller, will be accepted unless made of metal. No wood base cuts of this size will be used. Wood cuts are dangerous to forms and press.

Entered at the Postoffice in Tonopah as second-class matter

#### Progressive Campaign Funds

Some three years ago, when the term of Senator Flint of California was about to expire, and he was asked if he intended to be a candidate for re-election, he said "No," that since California had adopted the primary system of nominations he was not rich enough to be a candidate for the office; that he was not able to maintain his own personal campaign committee in all the legislative districts of the state, and therefore could not keep up his personal organizations; but without this, it was useless to be a randidate.

Senator Flint in this clearly foreshadowed what the practical operations of the primary system have developed. No one, except one who is volubly prominent before the people at all times or who is immensely wealthy stands any chance of political preferment under the new system. This has been exemplified in the case of Senator Stephenson of Wisconsin, and in other cases.

Illustrating the point, the Boston papers report that a campaign fund of \$100,000 has already been raised for the progressive committee in Massachusetts, for next fall's election. It is settled that "this is a new mark to be set on the material side of our politics," and it is further truly stated that "if the republicans were perfecting financial plans of this magnitude does any one doubt that the protest would be prodi-

The latter quotation is evidently sound and correct. It is all in the game and quite to be expected that the progressives will raise and spend a huge campaign fund. That was the rule last year, in the Roosevelt campaign especially, where a good deal more money was spent in his interest than in that of any other candidate, though he said he had to fight "without much money." It seems to be the necessary result of the sort of campaigning that is introduced under the progressive ideas and the primary system, that large amounts of money must be spent in politics. But if the republicane or the democrats spend even an approximate ratio to the expenditures of the progressives then the republicans or democrats are corrupt, they have political machines, and their bosses are to be eternally condemned. But the progressives may spend money in unlimited amounts, and their "leaders" are to be commended, and nothing must be said about the money that they use. It is a curious tendency of American politics that thus makes fish of one party and fowl of all other parties.

It is to be observed, however, that the progressives accept the situation with perfect equanimity and are quite reconciled to the idea of spending immense amounts of money in politics, without protest so far as they themselves are concerned, reserving their censure for those who spend money in politics, to pour out upon their opponents. The progressive campaign may cost two million dollars, and it is all right, but if a republican campaign or a democratic campaign costs a million dollars, then the mischlet is to pay, and the country is being swamped with "corrupt politics."

### A Serious Situation

The recall of the board of county commissioners was urged at meeting of Tonopah citizens last night. There appears to be merit in the complaint of the citizens. The board elected by the people of this county, apparently refuse to listen to requests of the people, and it is this refusal that has caused the trouble. The commissioners do not realize that they were elected by the people and are supposed to obey the desires of the majority. They are merely public servants and not dietators, and the sooner they realize this condition, the better it will be for the county.

The recall of public officials is a new weapon placed in the hands of the voters of Nevada and indications point to a rapid use of the new law. High-handed politics, as have been evident in years past, are not in favor today and arbitrary methods will not be sanctioned.

The Nye county commissioners do not realize their condition, but from rumors of the street, the board appears to be in a situation that is

After trying for sixteen years to have his mail addressed to the White House, William Jennings Bryan at last has tasted of success. Really, there is nothing like being consistent.

With both the Balkan and Mexican wars over, it is essential to the peace of the United States that the baseball season open without loss of time.

Now the Eagles are planning to own their own home in Tonopah. This is a city of lodge homes, the majority of the fraternal organizations owning their own buildings.
